LURE OF CALIFORNIA

MRS. WILBUR FRANCY TELLS OF THE EXODUS FROM MIDDLE WEST TO GOLDEN STATE

Mrs. Wilbur Francy of 454 Ivy St. has returned from the middle west and reports a wonderfully interesting trip. She divided her time between Chicago and the cities of Southern Iowa, the list of those visited including Fort Madison, Keokuk, Burlington, Mount Pleasant, Salem and New London. She found the cost of living there about the same as here and was impressed by the great prosperity of the farmers who are able to sell everything they produce at fine prices. An average corn crop had been grown but wheat was not as good as usual. More cattle and hogs are being raised than formerly and motor power has revolutionized farming to a great extent. She was struck by a number of tractors, trucks and automobiles which have superseded horses. The tractors enable the farmers to put in larger crop areas because the work can be accomplished so much quicker and with less human labor. Three plows can be operated behind one tractor as against one plow and four horses. Also, plowing can be done under conditions that would be too hard for horses. Her uncle uses a tractor on his farm which consumes ten gallons of coal oil a day when in operation. The most prosperous part of the community appears to be the farmers, she says, and land values have risen to unheard of figures though not quite so high just now as before the war closed. One farm not far from where she visited brought $500 an acre, and $200 to $250 is a very common price.

People are planning in large numbers to come to California after they have made their pile, disposed of their farms and are ready to retire. One could not pick up a paper, she says ,without finding chronicled in it the departure of Iowans intending to locate in California. The train she returned on was so crowded with these travelers that the first night out she was unable to get a berth. All of the people in her car were coming to the coast to stay, the majority in Southern California though a few were bound for San Francisco and other northern points.

In Chicago there seemed to be plenty of work for everybody and the city was so crowded that it was very congested and people were being forced into very cramped quarters because of the shortage of houses and apartments. The population appeared to have increased there just as it has in California and building was going forward rapidly in all the towns and cities. Mrs. Francy was in Mount Pleasant at the same time that Mr. and Mrs. M. P. Harrison were there.

IT IS UP TO THE PEOPLE

The population of Glendale is increasing to the extent of having doubled in the past six years. Five years ago the city took over the water plants and the distributing systems. Improvements and extensions made at that time were adequate for a city of 7000 people. Now there are 13,000 people and the water plants and the distributing systems are inadequate to serve the wants of the people.

The suit of clothes that very comfortably fits the child of seven years would be entirely too small for the child of 13 years, so in the instance of the water system that served well a population of 7000 will not serve well a population of 13,000. The parent is pleased that the child has a healthy growth and pays for a new suit without complaint. Citizens of beautiful little Glendale are taking the same attitude and many of them will vote for the bond issue next Wednesday with a clear business understanding that Glendale's growth has made it necessary to improve and extend the water system which is so important to a city's welfare.

Ifs and isms should not stand in the way of such an improvement. It is the duty of the people of Glendale when money is voted to be spent for any purpose to see that it is spent right. Call upon the Chairman of the Finance Committee of the Board of Trustees for a report and he will furnish it to you. If anyone connected with the municipal government is not performing his sworn duty, we have a right to see that such a person is removed from office, and that a man is elected to fill the office that will do the will of the majority of the people.

WEATHER FORECAST: Fair tonight and Thursday. No important change in temperatures.

EXTRA SESSION

LEGISLATURE WOULD CONSIDER JAPANESE MENACE AT AN EARLY DATE

Representative John Robert White got back from Sacramento, Monday. He reports that the opening of the session was preceded by a banquet tendered the Governor and Mrs. Stephenson by representative women of San Francisco and Los Angeles in appreciation of the calling of the special session to vote on the Woman's Suffrage Amendment. Mrs. Robert Burdette and Mrs. Irvine represented the southern end of the state.

It was the ambition of the legislators to have the vote go through in record time, Mr. White says, but instead of being unanimous as expected. two lone objectors, one of whom was a Mr. Green, voiced their opposition to the Federal Constitutional Amendment. Mr. Green argued that Woman's Suffrage should be a state matter, that every state should decide who should vote in that state, thus carrying the question back to the old state rights doctrine. He referred to the negro problem of the South and to the menace of the Japanese in California declaring that we had no more right to confer the vote upon the negro women of the South, —perhaps against the wishes of those states—than they have to say what shall happen in California in regard to the Japanese. The argument was a weak one, Mr. White says, but it revived the old sectionalism of North and South of 1861 and there was quite a little debate on state rights and the negro question. One of the speakers who replied to Representative Green prophesied that when the women of the South have the ballot they will put free schools all over the South and educate these negro women so they will be able to vote correctly.

Mr. Roberts, a colored man, made a speech in reply to the proposition declaring the negroes were trying to educate themselves. He spoke temperately and made a very favorable impression.

The entire debate lasted about an hour and after the vote ratifying the

(Continued on Page 4)

NEW BUSINESS

A little factory which has sprung up spontaneously as plants do after our first rains, and which, in a measure, is the outgrowth of the garden spirit which dominates Southern California is the ornamental basket factory which has been in operation about two months at 113 West Broadway. It is the manufacturing place of R. C. Vrooman who, with his wife, came from Tacoma, Washington, to Southern California about three months ago. He is a plumber by trade, but had an illness which called for a change of occupation. He had dabbled in rustic work for his own amusement and learned how to construct the boxes and hanging baskets, chairs and tables demanded in that line, so turned to it with enthusiasm and at once found a ready market for his products among the florists and nurserymen of Southern California. He has had all he could do in the way of orders from large concerns in Los Angeles and Pasadena and expects his trade to be largely wholesale though occasionally he turns out a local order. He secures his materials from willows and other growths in the river bottoms which the county permits him to cut. It is pleasant to see a man who has had to right-about-face in the work he has been doing thus able to turn his hobby to profit.

CHAMBER OF COMMERCE MEETING

A business session of the reorganized Chamber of Commerce was held Tuesday evening in the Council Chamber of the City Hall at which forty-five applications for membership was presented, accepted and enrolled, bringing the membership to sixty-five. The final draft of the new by-laws was read and adopted. Several other items of business were considered, one being the acceptance of an invitation to send a representative of the Chamber to a banquet to be given at Hotel Maryland, Pasadena, at which arrangements for the regular annual tournament of roses will be discussed. A committee was appointed to investigate a proposition to establish a cannery in Glendale. Another committee was appointed to see what can be done in regard to opening the road via Silver Lake. After some discussion the Chamber decided to hold open meetings monthly at which entertainment will be furnished. President J. W. Usilton conducted the meeting, and Secretary R. M. Jackson read the minutes of the previous meeting.

PRESIDENT CONGRATULATES COOLIDGE

SAYS WHEN LAW AND ORDER ARE THE ISSUE, ALL AMERICANS STAND TOGETHER

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 5.—President Wilson today telegraphed Governor Coolidge of Massachusetts as follows: "I congratulate you on your election as a victory for law and order. When that is the issue, all Americans stand together."

PRESIDENTIAL TIMBER

WASHINGTON POLITICIANS LIST REPUBLICANS LIKELY TO BE PROMINENT AT NATIONAL CONVENTION

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 5.—Major General Wood and Senator Hiram W. Johnson rank first in the list of Republican possibilities, according to the sentiment of political talk here.

Governor Lowden of Illinois is making a big impression and evidently has the support of those who expect new issues to be injected into the 1920 campaign.

Former President Taft's strength is gaining and it is declared that he is better known and more popular now than when he was president. His attitude on the peace treaty appears to have won him strength.

General Wood's boom is already under way. He is being urged as a second Roosevelt and many Roosevelt republicans are backing him.

If the peace treaty is an issue in the campaign it is believed that Senator Johnson will have the support of all those who are opposed to the treaty. If the treaty should not figure in the campaign however, there is a feeling that he would be without a clear-cut issue. Johnson is better known than Wood and it is considered likely that he would be a high man on the first ballot at the republican nominating convention.

Governor Harding of Ohio, Senator Borah of Idaho, Senator Poindexter of Washington, Senator Knox of Pennsylvania, and Senator Cummins of Iowa all have supporters.

There is much talk of the possibility that General Pershing or Herbert Hoover might be brought before the convention at the last moment as dark horses. Independent clubs supporting Hoover probably will begin to be organized soon.

TAMANY DEFEATED IN NEW YORK

TWO REPUBLICAN AND TWO DEMOCRATIC GOVERNORS ELECTED—THE FIFTH IN DOUBT

(Special Service to Glendale Evening News)

NEW YORK, Nov. 5.—Fairly complete returns from yesterday's elections show that two republican and two democratic governors have been elected with both sides claiming the victory in Maryland.

In Massachusetts Coolidge won an overwhelming victory over Long, a democrat. Morrison (Republican) won in Kentucky. Mississippi elected Russell (democrat) and Edwards, a democrat, won in New Jersey. InMaryland the latest returns show that Ritchie, a democrat, is leading.

In New York City Tammany was defeated, according to late returns, for a large majority of the important offices. Congressman Laguardie, anti-Tammany candidate is leading in a very close fight for presidency of the Board of Aldermen.

PARIS TO BE WORLD CAPITAL

FIRST MEETING OF LEAGUE OF NATIONS TO BE HELD THERE AS SOON AS TREATY IS EFFECTIVE

(Special Service to Glendale Evening News)

PARIS, Nov. 5.—The Supreme War Council today decided to hold the first meeting of the League of Nations in Paris as soon as the peace treaty becomes effective.

SAN FRANCISCO ELECTION

MAYOR ROLPH RETURNED TO OFFICE—FICKERT DEFEATED FOR DISTRICT ATTORNEYSHIP

(Special Service to Glendale Evening News)

SAN FRANCISCO, November 5.—Complete official returns from yesterday's election show that Mayor Rolph was elected over Eugene Schmidt by 27,587 majority. Mathew Brady defeated Charles M. Fickert for the district attorneyship by a margin of 6,433. Fickert had made his campaign on his record in the prosecution of Thomas Mooney. Friends of Mooney see some hope in Brady's election. Brady issued a statement saying he would make an entire clean-up of the district attorney's office but he did not mention the Mooney case.

GOVERNMENT STANDS BY INJUNCTION

WASHINGTON, November 5.—The National Coal association officers here today estimated that the coal strike has reduced the nation's coal production by two-thirds. Assistant Attorney General Ames issued a statement this morning declaring the strike is a violation of the law and that the government proposes to proceed against the strikers as long as the strike continues.

GIRL COOKS

GROWING POPULARITY OF DOMESTIC SCIENCE IN COURSES OF PUBLIC INSTRUCTION

Inquiry at the Domestic Science Department of the High School revealed the fact that a larger number of students are taking the course this year than last. The young womanhood of the town is beginning to appreciate what it means. The majority expect to marry and if they do not to be in a home of some description and the domestic training is a great asset. Miss Hanson, head of the department, says a good many of her old students who have become brides have come back to tell her of how much value they have found their work with her.

Miss Hanson says a good many people have the snap-shot impression that the training is limited to the practice girls have in compounding recipes under her direction. While that is part of the demonstration work by which they test their knowledge—just as students in chemistry experiment in a laboratory, the main thing is the basic principles they acquire which give them a working knowledge of how to combine food ingredients, and which will free them in a measure from being slavishly tied to a book of recipes. What they learn of food values, and of the importance of sanitary conditions is of even more importance. And the drill they receive in practical "kitchen work" is calculated to fix in them habits of order which they will practice when mistresses of homes of their own. All these things are sinking into the public consciousness and bringing about a realization of what this part of our public school education means to the community, and to coming generations.

Yesterday the girls were compounding a toothsome conserve which was presented to visitors as a conundrum to guess what it contained. It looked very much like apricot jam, and it resembled that delicacy somewhat in flavor, though some of the samples were much like a delicious orange marmalade. As a matter of fact its basis was plain, ordinary carrots cooked to the proper consistency, sweetened and flavored until it had become a delicious confection at a minimum cost. In a big family such a sweet would be a boon to the housemother in these high cost times.

The girls had also been making economical fruit cakes in which no eggs were required, one of these being a delicious apple cake in which apple sauce took the place of other liquids. This cake is better when a week old than when first made. With Thanksgiving and Christmas looming in the near future, these delicacies are timely, but as stated, they are merely the demonstrations of the important principles in which the girl students are grounded.

LOOKS FOR NEW LOCATION

Mr. and Mrs. L. B. Hooker of San Francisco, Cal., left the last of the week for their home in the bay city after visiting Mr. Hooker's sister, Mrs. Frederick Baker, at her home on North Maryland Ave., and spending some time looking over Los Angeles and environs. Mr. Hooker is the manufacturer of an automatic rewinding cabinet for motion picture machines which he invented and he has just been east on a business trip in connection with it. He is looking for a new location where labor conditions will be more favorable than they are in San Francisco and on the trip mentioned he visited Kansas City, St. Louis, Denver and several Michigan cities including Flint, Grand Rapids and Detroit. He found very favorable conditions in Flint and had almost made up his mind to transfer his factory to that city until after looking over Los Angeles. Now he is wavering. His sister is hoping Southern California will carry the day although she has a soft spot in her heart, too, for Michigan as it is her old home state.

NORTH GLENDALE ENTERTAINED

Residents of North Glendale were extemporaneously entertained Tuesday night by the amusing capers of three Neophytes of the Daubers' Club of Occidental College who were engaged in becoming full-fledged members of this organization, a well-known art and social club. The series of laugh-provoking events followed the initiation banquet at La Ramada. The banquet was presided over by Kenneth Beldin, president of the club. Shoes were shined: dishes washed, without charge, and the dramatical, oratorical and vocal numbers created no end of genuine gastronomical laughter.

MASONIC FROLIC

UNITY LODGE HOSTS TO JINNESTAN GROTTO OF LOS ANGELES TUESDAY NIGHT

High jinks at Masonic Temple Tuesday night gave Local Masons the most royal good time in the way of pure fun that they have enjoyed in some time. The occasion was the reception given by Unity Lodge No. 368 to the Jinnestan Grotto of the Mystic Order of the Veiled Prophets of the Enchanted Realm.

A preliminary lodge session was held at six o'clock at which third degree work was put on by the regular officers. It was followed by the Jinnestan program which lasted into the early hours and which was topped by a banquet.

This "Grotto" is an off-shoot of the Masonic orders as a social character with fraternal features. It resembles the Shrine. About thirty officers and members of the Grotto in Los Angeles came out and furnished a program in charge of Monarch Tom Wilson, who is with the Charley Chaplin organization. The talent was nearly all professional. For instance, Master of Ceremonies, Charles Parrott, is director for Carter de Haven, a prominent film star. Roy Cleveland, a star coon impersonator, was on the program, as was also Buddy Jamison, a super-Fatty Arbuckle, who is prominent in the L K. O. comedies. Billy McCall, who is with the Vitagraph people, gave Irish impersonations. According to Dr. Hogue, Jamison is one of the convertible sort who can be transformed from a Jew to a Spaniard in a few moments. The program included a number of high class vocal numbers accompanied by the full orchestra of the Grotto.

After the program had been concluded lodge members and their guests repaired to the banquet hall where about two hours were spent in the enjoyment of a fine supper and a social good time. The chief speech of the evening was made by Monarch Tom Wilson in which he outlined a super-ceremonial of the order which is to be given in the near future at which one thousand neophites will be initiated including a class of twenty-five from Glendale. This is an annual affair familiar to Masons marked by a huge spectacular street parade which lasts nearly all night. Details and the time and place will be announced later.

LITERARY SECTION

ART, LITERATURE AND RELIGION IN CURRENT EVENTS PRESENTED TUESDAY

The literary section of the Tuesday Afternoon Club met November 4th at the home of the curator, Mrs. Charles Hutchinson. There was a large attendance and a most interesting program was given. To Mrs. David Gregg had been assigned current events in literature and art. She reviewed "The Old Mad House" by Doctor Morgan who died at the age of 78 before the book was finished leaving it to be completed by his wife. She showed that it was a work of art inspired by optimism. Another book reviewed by her was "Margaret's Protest," written by a London working woman, which is quite unusual. She mentioned likewise the recent work of Booth Tarkington. She declared that one of the important results of the war had been the firm establishment of Christianity as "the triumphant religion of the world."

Mrs. Harriet White presented current events in Servia. Her remarks were full of information and awakened great interest.

Current events in science, art and invention were reviewed by Mrs. J. K. Hill. She threw interesting sidelights on the coal miners' strike and congressional legislation relative to prohibition and its enforcement.

The curator, Mrs. Hutchinson, paid an eloquent tribute to the poetess, Ella Wheeler Wilcox, who passed away last week and several of her poems were read by members of the section, Mrs. George Adams reading "The Undiscovered Country," Mrs. Opal Greenwalt "The Yellow Almanach," and Mrs. Mabel Franklin Ocker "Whatever Is, Is Best."

The chief book review of the day was given by Mrs. Kate E. Williams who closely held the interest of members by her exposition of "The Moon and Sixpence" by Maughn. It is a psychological story of profound interest.

Mr. and Mrs. George Mitchell are expected to return to their home at 1715 Kenneth Road in the course of two or three weeks. Their daughter Margaret is already here with her uncle and aunt, Mr. and Mrs. Alexander Mitchell.

GLENDALE, CALIFORNIA, WEDNESDAY, NOVEMBER 5, 1919

ARE THE PREACHERS TO STRIKE?

Preachers have caught some of the spirit of unrest if we may judge from the utterances of the Rev. John R. Stratton, of New York, whose denominational affiliations are not revealed in reporting his remarks. Mr. Stratton talks plainly when he says: "If the devil was not working twenty-four hours a day, American preachers might take a strike vote and let the country go straight to hell."

The words of theNew York minister are forcible and they serve to renew attention to a subject often commented on—the small pay of the average preacher. Ministers' salaries always have been entirely too low compared with the education and natural ability demanded. At present preachers are sharing with others of fixed incomes the problem of making salaries fixed at pre-war figures, and none too large then, balance post-war prices of living. While anyone with the financial consideration only in view would be foolish to enter the ministry, a church that calls a pastor or receives one sent should contribute sufficient support to enable him to live comfortably and maintain his self-respect as one who pays his way.

While financial support is necessary for the preacher if he has received the call and fits his profession, he is also engaged in the war for the character of the service he can give. But even so, the satisfaction he gets from the love of the work and duty faithfully performed is not compensation for the self-denial he is compelled to practice. Such satisfaction cannot be exchanged for groceries and clothing. It is the non-negotiable reward of every worker who is in love with his job. The man who does not feel pleasure over work well done, regardless of the money received for it, is a misfit in his line of effort, and this is true of preachers above other professions.

However, the plan of striking will hardly provide a remedy for the evil of which the New York pastor complains. Churches are not conducted for financial profit like business institutions. Relief doubtless will be had through increased appreciation of the membership of what constitutes a living salary for a preacher, considering his family and the demands made on him. That much is his due and he should have no less. Yet no matter how large the salary, from the service he renders will the preacher receive the greater reward, if he is truly devoted to his calling.—Exchange.

An American naval officer predicts that we will soon be going around the world in a week. Hurry it up. At that time a fellow's mail ought to be never more than a week late.

This epidemic of war movies is doing more than anything else to disgust us with the idea of war.

BIG SALE ON

Personals

Mr. and Mrs. W. K. Adams of St. Joseph, Mo., will spend the month of November with Mrs. Adams' sister, Mrs. McGlothlan, at 912 Orange Grove avenue.

Mrs. Martha Morris and her daughter, Mrs. Stanley, of Everett street, have both been confined to their home for several days by illness.

Mrs. Stephen C. Packer of Riverdale Drive went north to Berkeley last Sunday for a week's visit with her son Donald, who is attending the State University.

Miss Helen Byram of Merced returned to her home last Monday after a ten days' visit with her grandmother, Mrs. H. M. Byram, of Glendale avenue, and her aunt, Mrs. E. K. Daniels, of Lomita avenue.

James Bloor and mother have sold their property at 426 North Maryland avenue to Dr. Parker of Lexington and Central avenues. The Bloors are moving to a new bungalow on West Broadway.

Mr. and Mrs. McKerlie and two children from Sturgis, Mich., who have been visiting their aunt, Dr. Kate Black, for the past year, returned to their home Sunday. They will be much missed by the doctor.

Dr. Clyde M. Crist, pastor of the First Methodist Church of this city, has had the honor to be elected president of the Ministerial Association of Southern California, which has meetings every Monday and which is the largest of its kind in the west.

Mr. and Mrs. Leon Flutot of 412 Oak street, who have been spending a month superintending the gathering of the crop on their walnut ranch at Whittier, have returned to their home in this city. They were recalled sooner than they expected to come by the death of Mrs. Flutot's aunt, Mrs. Maurice Hartmann.

Marion L. Lehman, formerly a student of Glendale High, was elected President of the Student-Body of the Colleges of Law, Commerce, Accounts and Finance of Southwestern University. Marion is a senior in the College of Law and expects to obtain his Degree of Bachelor of Laws in June.

The Shakespeare Section of which Mrs. E. D. Yard is curator and Mrs. C. B. McClure instructor, were delightfully entertained Monday afternoon at the home of Mrs. Walter Jones on West Vine street. Tea and cake were served at the close of the lesson which covered the third act of Othello.

Mrs. Charles Turck, of South Glendale avenue, is still away. She had expected to get home in October, but has been unable to get transportation. She is in Chicago and has had money deposited with the railroad company since October 20th, but has not been able to get reservations on account of the heavy travel Californiaward.

Mrs. Emma Burket of 520 East Harvard street is making plans to go north next week for an indefinite stay with friends and relatives in San Francisco, Berkeley and Oakland. She has leased her house for a year to Messrs. Leforce who have purchased the Century Grocery on the corner of Broadway and Franklin Court. Her son, Dana, will occupy the apartment she owns.

The purchasers of the Cassell home at 515 North Kenwood took possession last week and are very much pleased with Glendale. The family consists of Mr. Jackman, who is a real estate dealer in Los Angeles, his wife, Dr. Payne Jackman, and Mrs. Jackman's mother, Mrs. Payne. Dr. Jackman is an osteopath who practiced in Los Angeles before going to Orange where she was in practice when they moved to Glendale.

Mrs. Daniel Campbell has been taking life very quietly ever since her return from the convention of the Grand Chapter of the Eastern Star at Santa Cruz which she says was the largest the chapter has ever held, seven hundred delegates being present. It was also a wonderfully harmonious meeting, she reports, and in all respects one to be remembered with pleasure. She went north with Dr. and Mrs. H. V. Brown and returned by train.

John A. Morris, who some years ago ran a peanut wagon on Broadway near Louise, and was known to everyone as Uncle John, has returned to Glendale from Kirksville, Mo., where he went four years ago, and is at the home of his niece, Mrs. F. W. Anderson, 126 North Louise street. Uncle John is in feeble health and is glad to escape the severe winters of Missouri.

Glendale traffic cops are now stationed on San Fernando Road at the south end of the city and are stopping every truck to inquire as to its ownership and how frequently it passes over the road. This is in obedience to the instructions of the city council who directed that such an inquiry be carried on for one week to determine the amount and character of the traffic on the San Fernando Road with a view to making some estimate of the wear and tear of the road and to ascertain how large a proportion of the traffic is through travel.

WHERE THE MONEY IS TO GO

The proceeds of the proposed $260,000 bond issue will be used only for the purposes here stated, which are more particularly described in a statement issued by the Board of Trustees a few weeks ago and generally circulated. No part of said proceeds can or will be used to pay any indebtedness of the Public Service Department, and all rumors to the contrary are and will be unfounded. The indebtedness of the Department is being taken care of out of its income. Any one desiring further information as to the finances of the Department can obtain same by referring to said statement, or to previously published statements of the Board regarding same.

Amount of Bonds	**$260,000.00**
To be expended as follows:	
Pumps	$ 36,500.00
Reservoirs	48,000.00
Pipe lines	123,050.00
Wells	32,000.00
Additional Gravity Shares	10,000.00
Hydro Electric Plant	10,000.00
Bonding Capacity of Glendale	**$1,200,000.00**
Bonds Outstanding	**494,250.00**
Remaining Bonding Capacity	**705,750.00**

Mr. and Mrs. R. W. Masters, who have been living at 1317 Campbell street, have moved into their new home at 126 Burchett St.

Mrs. B. L. Cline of 720 East Windsor Road has been very ill, but is now sufficiently recovered to sit up part of the time. She hopes to soon be completely restored.

A NEW BOOSTER

Mrs. Foster, who arrived in Southern California from Pittsburg about four weeks ago and who purchased property about two weeks ago at 236 North Louise street, is already an enthusiastic booster for Glendale which she says was selected by her as a place of residence because she considered it the most attractive suburb of Los Angeles after making quite a thorough canvass of all the suburbs, and because of its clean physical and moral atmosphere, its fine schools, etc. She is now trying to induce all her eastern friends to follow her example and come here to live. She says she has been treated royally by Glendalians and knows she is going to enjoy her new home very much.

MILK AS A PUBLIC UTILITY

Representative John Robert White tells of many propositions brought to Sacramento to be sprung at the special session of the legislature convened last Saturday provided there was any opportunity to slip them in. One such was a bill which a San Francisco representative tried to introduce to make milk a public utility and place it under the control of the Railroad Commission. He was very serious about it, Mr. White says.

SEVENTH BIRTHDAY CELEBRATED

Mrs. H. F. Clewett entertained Tuesday afternoon in honor of the seventh birthday of her daughter, Miriam, at the Clewett home at 526 East Windsor Road. Pink and white was the color scheme which dominated the decorations for the pretty affair. The afternoon was spent playing children's games after which party refreshments were served. Mrs. Clewett was assisted by her sisters, Mrs. F. J. Matthiesen and Miss Edna Phillips. Those present were: Miriam Wallace, Mary Clare Morgan, Rhodora and Martell McKee, Margery Turner, Ruth and Wulma Hutt, Virginia Rutter, Barbara Muhleman, Dorothy and Howard Matthiesen, Soreno Hugo, Alma Johnson, Violet and Lee Brenton, Robert, Stanley and Miriam Clewett.

MASQUERADE PARTY

Miss Ruth Ryan entertained a group of her friends at a jolly masquerade party, Saturday, November 1st, at her home at 332 West Acacia avenue. Miss Ryan was assisted by her mother, Mrs. Harry Ryan. The house was very beautifully decorated in the Hallowe'en colors, with witches, ghosts, etc.

Dancing, music, games and the usual Hallowe'en pranks served as entertainment for the guests after which refreshments were served. The guests included: Misses Louise Storer, Ruth Ryder, Edna Burson, Ellen Cate, Mildred McKee, Eileen Sullivan, Ruth Spafford and the Messrs. Al Sullivan, Jack Gilbeau, G. Gordon, Bob Sullivan, Clarence Ralston and Frances Sullivan.

BANKERS CALLED FOR CONTEMPT OF COURT

(By United Press)

SAN FRANCISCO, Nov. 5.—Three leading bankers of Modesto were called to appear in Judge Van Fleet's court to answer charges of contempt, and to show reason why they should not be fined $32,000.

The men are E. C. Peck, president of the First National Bank of Modesto, C. D. Swan, president of the Union Bank of Modesto and G. W. O'Connor.

They are charged with assisting evasion of a judgment in the Federal courts levied against Mary J. and Thos. P. Fillon, Modesto hotel owners.

The legal battle hinges upon a precedent set in the case of Samuel Gompers, John Mitchell and Frank Morrison, labor leaders in the Buck Stove company strike several years ago.

In the local case a judgment for $32,000 was rendered against the Dillons in favor of Mrs. Frederick Lineker, but the defendants had turned their property over to the banks, it is charged. Now the bankers are being sued to see if they must pay the claim.

EXTRA SESSION

(Continued from Page 1)

amendment had been taken the gavel that had been used was presented to a club federation represented by Mrs. Burdette and on behalf of the organization she made a speech of acceptance. This was all out of order for it is against the rules of the House for anyone except a member to have the privileges of the floor, but rules were disregarded on this special occasion. In like manner the gavel used in the Senate was presented to some Northern federation of Women's Clubs.

Mr. White strongly approves the stand taken by Governor Stephens when he refused to convene another session of the legislature to consider the Japanese question giving as one reason that in the present unsettled condition of world politics to inject this question would be very unwise. Another reason given by the governor and quoted by Mr. White was that when California does enact laws along that line, it should have irrefutable and unassailable facts upon which to base its action because to go off half-cocked would be a serious mistake. None of the legislators had more than hearsay evidence as to the conditions complained of with regard to the Japanese, nor had the governor any facts in his possession. The Board of Control had been instructed however to gather facts to be presented at the next session of the legislature and those facts would show how many Japanese picture brides had come in, how much land had been leased to the Japanese, how many Japanese were in this school district or that. The majority agreed with the Governor that it would be very unwise to pass laws relative to the Japanese question when there was no sound basis of fact to start from. The Governor objected to having any date set for a special session, but the members of the legislature decided and passed a resolution to that effect, to ask him to call an extra session of the legislature on or before January 5th, it being presumed that world matters will be more settled by that time and also being presumed that in two months' time the Board of Control will be in possession of the basic facts.

The Governor had said that he would summon it when world conditions were such that it could be called without embarrassment to the Federal government and when he had sufficient facts before him. He may not be ready to do so by the date the legislators have named.

If the Governor had convened the legislature for another special session immediately following its adjournment, as he was urged to do, a measure which would have been introduced was one calculated to do away with the picture bride importations. The bill provided that "No marriage in California shall hereafter be legal unless both contracting parties are present at the ceremony." This would remedy the matter so far as California is concerned and would not be discriminatory legislation since it would apply to all marriages native or alien. Another proposed bill would forbid the leasing of land to any alien not eligible to citizenship. This, as Mr. White points out, would not stop the leasing of land to the children born in this country of Japanese parents. A resolution had also been framed forbidding any alien ineligible to citizenship from owning stock in any corporation engaged in purchasing or operating land. This was intended to offset the dummy companies in which the names of Americans appear in the directorate when the real owners are Japanese.

Relative to the proposed extra session, Mr. White says:

"I think if we do make a careful investigation and if the Board of Control brings in the data it has been instructed to get, and the Governor does call the session we will be able to pass some laws that will help the situation and may be able to start some propaganda that will influence action in some other states and action by the Federal government along lines that will reduce, if not remove the alien menace."

At the rate the Japanese in this state are producing children they will outnumber the whites in the course of a few generations and Mr. White had something to say along that line, too, about race suicide and the manner in which the well-to-do are shirking their responsibilities and leaving the production of children to the poor who can least afford it. "Of what use is it to have an America," he asks, "if we do not raise Americans to occupy it?"

Your Magazine Subscriptions Will Soon Be Due

PLACE YOUR ORDERS WITH US

The season is approaching when many of your magazine subscriptions will expire. We want to save you the trouble of looking up subscription rates, addresses of publishers and other information and writing letters to each magazine.

Simply Make a List of the Magazines You Want and We Will do the rest

The traveling agent may come to your door with enticing offers but are you sure that he is an authorized agent? Publishers give all dealers the same rates so if he offers you bargains that we cannot give you, you are justified in thinking he may be an impostor. If your subscription goes astray and you do not receive your magazine, we are here to be the goat, while the traveling solicitor has gone to pastures anew.

TEN COMMANDMENTS

(By United Press)

LOS ANGELES, Nov. 4.—Ten commandments as a weapon against high living costs have been framed by the American Bankers' Association, and were made public here today by Motley H. Flint, prominent Southern California banker.

Here they are: (1) Make a budget. (2) Keep an intelligent record of expenditures. (3) Have a bank account. (4) Carry life insurance. (5) Make a will. (6) Own your own home eventually. (7) Pay your bills promptly. (8) Invest in war savings stamps and government securities. (9) Spend less than you earn. (10) Share with others. Thrift without benevolence is a doubtful blessing.

TEACH THE CONSTITUTION

First and foremost has got to be fought out the problem as to whether the Constitution of the United States, protecting the right of the individual to make material progress, to accumulate and to save, is to be protected.

The first reform necessary is to put behind the flag at every schoolhouse the Constitution of the United States. There should never be a graduation certificate or a diploma issued to a West Point cadet, a State university student, a high school scholar or a grammar school pupil who has not passed an examination and shown his knowledge of the meaning of the Constitution of the United States and its representative form of government.

In the political agitation that has gone on, it seems almost to have been forgotten that great as is the Constitution of the United States, its greatness consists in the freedom it gives to individual enterprise and for combinations of enterprise and capital; the protection it gives to individual inventors, and the stimulus it furnishes to individual initiative.

U. S. spells not only "combination" but wealth and independence as the reward for business enterprise which enlarges output, improves quality and reduces prices.

It is thus that here the people are better and more abundantly fed and clothed and let it never be forgotten that labor consumes more than 90 per cent of what it produces.

CALIFORNIA'S PROSPERITY

A bulletin issued October 3 by a San Francisco bank estimates California's wheat harvest at 14,000,000 bushels, double that of last year and the largest since 1907.

It is estimated that the national production of barley will reach 195,000,000 bushels, of which California will yield 31,150,000 bushels, nearly one-sixth.

The estimate for rice is 43,000,000 bushels of paddy. California's proportion of this is more than one-fifth, 8,750,000 bushels, a phenomenal crop with respect to rapid strides in development.

Some indication of the tremendous movement of perishables out of California may be gained from the estimate of the Pacific Fruit Express that the amount of ice used this year in safe-guarding shipments is 63 per cent above that of last year. Interstate shipments by the Pacific Fruit Express from January 1, 1919, to September 30, total over 73,000 carloads as against 51,000 for the same period last year.

The grape movement is already 2400 cars ahead of last year.

In the face of this phenomenal demand for equipment, the railroads are imploring shippers to load to the limit and release cars immediately.

Bringing the ex-kaiser to trial will help to explain some interesting matters, but it cannot be expected to do much real work toward repairing the damage.

The first man took what was not his, and the second killed the third. We have come a long way if we can abolish coveteousness and the desire to kill.

The reason we know there were profiteers in the old days is because the king of Babylon was reduced to eating grass about 570 B. C.

Once upon a time there was a garage man who had a car repaired and ready for use when promised, but it didn't do the owner any good. The shock killed him.
